# New Brunswick's First Year's Experience of Union.

[From the St. John New Brunswick Morning News.]

SIR,-As much misapprehension prevails in this Province in relation to the taxation imposed by the Union and by Parliament, and especially as to its effect upon the inhabitants of this portion of the Dominion, I desire to submit a few facts gathered from New Brunswiek's first year's experience of Union, and ask for them the careful consideration of the Public.

The average expenditure in New Brunswick for Roads, Bridges, and Education for the seven years terminating in October 1866, was \$233,649 per annum. The sum estimated under Acts of the Legislat re and voted for these services the year previous to the Union was \$257,-380, whilst the amount provided for the same services by the Local Legislature in 1868-the first year of the Union reached \$273,960, being \$16,580 more than the appropriations of 1867, and \$40,311 over the average expenditure of the seven years preceding.

These figures clearly show that so far as the local services are concerned, they are provided for upon a more liberal scale under the Union arrangements than they were previous to Confeder-

I now give a statement of the taxation of the fiscal years '66 and '67 as compared with the collections from all sources for the year ending the 30th June

The public records and account, for 1865-6 show, that there was collected in New Brunswick from Customs, Railway Impost, Light dues, Sick and Disabled Seamen and Buoy and Beacon funds (less drawbacks) \$1,021'765; that from the 1st July, 1866, to 30th June, 1867 (the year preceding the Union) there was collected from the same scources (less drawbacks) \$950,515; whilst during the first year of the Union there was collected from Customs, Railway Impost, Light dues, Sick and Disabled Seamen, Buoy and Beacon dues, duty on Bank circula tion, all the sources of revenue, \$903,-250, showing a reduction of taxation as compared with 1867 of \$44,265, and with 1866 of \$115,515. The sum of \$906,250 paid to the Dominion Treasury

is made up as follows :-Customs, Railway Impost, Light dues, Sick and Disabled Sea-

\$880,000 2,250

\$906,250 These comprise all the items of taxation, the proceeds of which pass to the Treasury of the Dominion. To complete the amount received from New Brunswick by the General Government, we have to add the difference between the receipts and expenditure of the E. and N. A. Railway. The Superintendent furhishes me with a statement shewing the receipts to be in excess of ordinary expenditure, \$29,946, from which is to be deducted \$13,460, payments on account of Locomotives, Freight Cars and permanent way, leaving a balance to be added to Customs, Excise, etc., of \$16,-483, making the contribution from New Brunswick to the Dominion Treasury for the year, to be, as near as may be \$922,710.

I now give the sums paid, or to be paid from the Dominion Treasury on account of New Brunswick for the year ending 30th June, 1868, exclusive of \$410,764 paid on account of Railway Stock and Railway Subsidies.

Revenue, including Excise and Registration of Shipping ......
Post Office deficiency estimated at .....

These figures show that during the first year of the Union, New Brunswick has received from the Dominion Treasury \$939,163 for services, for which she, before the Union, was called upon to provide, and \$16,453 more than we have paid into the General Treasury from all sources of Revenue. Consequently we so far have not contributed a dollar towards the expences of the General government, Public Departments, Parliament, Ocean Steamer service, Intercolonial Railway surveys, the purchase, extension and furnishing of the Governor General's residence, maintenance and repairs of public buildings, the publication of the Laws, Gazette or public printing. So much for the past year.

The provisions of the act of Union and the appropriations of Parliament, will require to be paid on account of New Brunswick for the current year. \$1,082,-473, or \$159,763 in excess of what wo have contributed to the Dominion Treasury during the past year. They may be stated as follows :-

Interest on Debt of New Bruns-Penitentiary Defleiency

29,200

This is exclusive of the \$1,175,000 voted for payment of Railway Stock and Railway Subsidies.

It is quite clear that this year, the ordinary expenditure by the Dominion on account of New Brunswick, must be in excess of the revenue received, and that we, this year as in the past, will contribute nothing towards the expence of the General Government, Parliament, or Departments, nor to the expenditure on Intercolonial Railway and defences.

Surely the people can have no grounds for complaint, touching the financial view of the question.

Tuesday Morning, Sept. 29, 1868. English Summary. The papers received by the last mail do not give us much news; the important items having been already anticipated by telegraph. The coming elections of course form the principal topic of newspaper gossip, politics seem to be less considered than the leaders of the two parties, as the last election resolved itself into a question of supporting the Prime Minister of the day, or the then Conservative Chief, so the election of 1868 turns upon personalities; the Irish Church question is the principal issue between the parties. Justice to Ireland is the watchword of the Radical party, and the Conservatives can only deprecate the policy proposed to be adopted by Mr Gladstone, without putting forward any distinct policy of their own, so that in fact they are obliged to be content with announcing themselves to be supporters of the Disraeli Gov. ernment. The Liberals, to judge from their addresses, have a firm faith in Gladstone, he is the one man to whom they turn as fit to lead the House of Commons, and the whole Liberal party, the most Radical reformers are content to range themselves under his banner. This is somewhat of a strange position for one who was described by an eminent reviewer, a staunch liberal, writing nearly thirty years ago, as "the rising hope of those stern and unbending Tories who follow, reluctantly and mutinously, a leader, whose experience and eloquence are indispensable to them, but whose cautious, temper, and moderate opinions, they abhor." Still more strange is it that Mr. Gladstone should have so completely reversed his opinions upon the Irish question since he published "the State in its relations with the Church" in 1839; at that time he would give the Irish a Protestant Church whether they liked it or not. Surely Liberal principles are contagious, for no sooner did Gladstone secode from the stern and unbending Tories, with Sir Robert Peel, the very leader whom they had intended him to supplant, than year after year we find him mixing amongst Liberals more and more until he becomes Radical enough for Bright, and beloved of Manchester. The Conservatives have been lucky in the amount of patronage that has fallen to their share. Much indignation is expressed by the opposition journals at the appointment of Earl Mayo to the Governor Generalship of India; succeeding a man so thoroughly India as Sir J. Lawrence, than whom no Gov. ernor General since the days of Warren Hastings has so thoroughly understood the native character; Lord Mayo will have a hard task before him; the Conservatives have generally appointed men, whose very names are unknown in India to Governorships, the result has been that they have the credit of having appointed the very worst Governor General that ever ruled in Bengal, and none who have particularly distinguished themselves. Mr Du Cane, M. P. for North Essex, and Junior Lord of the Admiralty, has accepted the Governorship of Tasmania, and the Hon. Frederick Stanley, younger son of Lord Derby, takes his place as Junior Lord of the Admiralty. Sir James Ferguson is to be the new Governor of South Australia. The Globe officially announces the names of the new Judges to be appointed in pursuance of the Bribery Act, 1868. They are: Sir W. B. Brett, Solicitor General; Mr. Pickering, Q. C., and Mr. Huddleston. Q. C. Mr. J. S. Williams has been appointed Chief Justice of St, Helena. It is rumored that Lord Justice Sir W. Page Wood is to be raised to the Peerage. A novelty in strikes is suggested in a handbill extensively circulated in London, which calls upon all travellers by railway, to strike until Directors are brought to their senses and consent to a reduction of fares. The conduct of the Directors of the South-Eastern and Brighton Companies, has given rise to a project for a new line between Brighton and London, which seems likely to be carried out. The open market system is being greatly increased in London to the immense advantage of consumers; at King's Cross, a large market for almost every of article required by house holders, has been opened, and whilst the prices quoted are very low, the market seems highly remunerative to the proprietors, the enormous meat market at Smithfield is rapidly approaching completion, when completed it will, with the Holborn Viaduct and the anderground Railway, entirely change the aspect of the quarter of London in which it is situated. We observe that some of the papers foll

in error a short time ago in recording the death of Dr Lushington, ex-Judge

died at the ripe age of ninety-four.

CITY IMPROVEMENTS .- During the summer there has certainly been more building carried on than has been known for some seasons past, in Victoria and vicinity, and which has given general employment to our artificers and tradespeople, at excellent wages. First in pretension is St Andrew's Church, which gives employment to twelve carpenters at \$4 a day, three bricklayers at \$5 and laborers at \$2 50 per day—the whole will cost about \$10,000. 2nd; the improvements at Government House, which on an average have employed twenty men of the various trades and occupations, at same rates generally, except perhaps carpenters, who do the finer woodwork, to whom a higher rate is given-Cost over \$5000. Banster's brewery next, which is rapidly approaching completion; we are told it is being erected a at cost of \$10,000; the new brewery being built for Mr C Gowen at the corner of Yates and Blanchard streets, we have also to mention, the cost of which we did not learn. To these must be added the extension to the Land office; school house in connection with St Johns; several new places of business being fitted up, residences are being improved, gas lamps have commenced to be put up in our streets, and other minor works in different parts of the town, which together cause quite a considerable amount of money to be distributed amongst the tradespeople of the city. It is not very much to boast of it is true, but it is a sign of the good time coming. Mechanics are scarce in some branches of the professions, millhands and miners, and farm laborers, &c, all can find work, we are told, at good wages.

THE INQUEST .- The adjourned inquest upon the body of the Fort Rupert indian woman Kitty, reported in our columns last week, was brought to a close yesterday. The only additional evidence adduced was that of the medical practitioner who made a post mortem examination, and the former opinion was adhered to, viz., that the woman had been dead when discovered, for eight or ten days; that the back and right side of the head had been considerably bruised during life, but the skull had not been fractured. The vessels of the brain and lungs were greatly inflated, as is always the case when death ensues from suffocation, and left no doubt that suflocation was the cause of death. The woman was sixteen not nineteen years of age. Two Fort Rupert Indians were examined, but nothing could be elicited from them, except that the woman always had a sore neck which she invariably kept covered. On Dr Davie's evidence the jury found a verdict of 'death from suffocation with violence by parties unknown.' You Chung, the Chinaman, who tied the body up in the bedding and first gave information to the Police, was admitted to bail for one week, to enable the police to look the case up further. Mr Courtney appeared for the Chinaman.

THE DOROTHEA.-It appears that this illfated vessel, which left our shores last September for Melbourne, was wrecked on Starbuck Island, lying in about 5 deg. south latitude; whence the crew, eighteen in number, took the boats and proceeded to Penrhyn Island where they remained about a month, receiving from the natives the most kindly treatment. A portion of them, twelve we believe, subsequently took to the boat again and reached Aitatuki, and thence proceeded to Raratonga in an American vessel, one of them afterwards joining that vessel. An English trader finally rescued those remaining at Penrhyn Island, but no particulars have transpired respecting the party who went on to Raratonga. The Board of Trade in England have sent presents to the natives of Penrhyn Island and to the King of Raratonga, in recognition of the kindness manifested to the shipwrecked crew.

SHIPWRECKS .- The sloop Angeline, Kirk arrived from Port Townsend last night. She reports two ships ashore on Dungeness Spit; one a lumber vessel from the Sound, which will be a total wreck; the other from Nanaimo [?] with coal which it is expected will be saved. They went aground on Sunday in a dense fog. Capt Kirk says the breakers on the spit yesterday were fearful, and that he experienced a very heavy sea crossing the Straits. The ship Ellen, Louden OFFICIAL —All the land lying bet master, sailed for San Francisco on the 27th; previous reservations at Baynes Sound, gaw the Del Norte going into Port Townsend on Sunday, but heard nothing of the

THE RAILROAD ACCIDENT IN WALES .-The Marchioness of Abercorn (lady of the Lord Lieutenent of Ireland) and family, Lord Castlecrosse and family, Mr and Lady Selwin-Ibbetson were passengers on the unlucky train, but escaped hurt. A watch was found with an inscription shewing it belonged to Lord Farnham, who was accompanied by his wife, Miss Stafford and several attendants male and female. In some cases an inch or so of a dress only was found which merely shewed to what sex the victims belonged. In several instances even cinders of the charred bones had not been

THE LATE EARTHQUAKE, -On the same day of the earthquakes which occurred in South America, August 15th, tidal waves entered the harbor of Honolulu and other ports of the Sandwich Islands. Several severe shock of earthquake were felt on the Islands about the same period, accompanied by severe thunder and lightning. In some ports and parts of California the same phenomena were experienced. Some people think that a catastrophe resulting from earthquake will be the end of San Francisco.

WE take the following not from an antiunion paper :- 'Hon Joseph Howe dined with the Duke of Buckingham, and at desert Joe peeled an orange and was about to eat it when the Duke asked him why the orange he held in his hand resembled the union of the provinces—the Dominion of Canada? Joe gave it up, and the Duke said, because it could not be repealed!

that a Convention is shortly to be held in this City by some of our citizens for the purpose of discussing a subject of considerable importance. As far as we can learn it would appear that some of the old clothiers have found out that customers will not buy from their stock of slops and shoddy, since Adams & Beaven have opened out their stock of new, fashionable and well made Clothing, Hats, Caps, &c., on Government street.

THE INDIANS AGAIN .- We heard yesterday that several medical gentlemen in this city, from what they have seen, give it as their cpinion, the Indians are not dying of small pox. A suggestion was made some time since, it is said, by one of the faculty, to have a proper investigation made, as to th disease which is carrying them off so suddenly. It would only be an act of justice to all of us if the investigation were made without delay.

INDIAN MASSACRE.-Capt Kirk informs us that a report was current in Port Townwhen he left, that fourteen Chimpsean Indians were murdered at Dungeness, W T, on Friday night last by the Indians of that neighborhood. It was supposed by the murderers in committing the deed, they would secure a considerable amount of the earnings of the Chimpseans who had been at work up the Sound.

CATTLE SALE .- The sale of stock yesterday at the yard of J P Davies & Co, considering the condition of the cattle, gave great satisfaction. Yearling heifers ranged from \$22 to \$29; two year old heifers from \$25 to \$35; cows from \$32 to \$45 each. Apart however from the excellent average price we understand they were purchased by different parties whose intention it is to raise stock, and no doubt be well repaid. The horses, mostly inferior animals, brought low figures.

THE SANDWICH ISLANDS .- The schooner Robert Cowan, Capt Gardiner, arrived yester. day from Honolulu with sugar and molasses, dropped anchor in Cordova bay; was 14 days in the Straits beating about in the fog, and 33 days from the Islands She is consigned to Janion, Rhodes & Co. Yesterday morning collided with the Adolaide Cooper in the straits neither vessel sustaining injury.

MRS. DIGBY PALMER intends resuming ber Juvenile Dancing Class (boys and girls), or Tuesdays and Fridays at 3 p. m., to be held at the Germania Sing Verein Hall, Yates street, one door below Wells Fargo's; commencing on Friday, the 2nd October, 1868 For terms apply at Mrs Palmer's residence Kane street, Victoria, B C.

THE STEAMER ACTIVE .- A telegram has been received stating this vessel would go to Port Townsend, and deliver troops on board of the Del Norte, which was to wait there for her. The Del Norte will then proceed to San Juan Island and Fort Wrangel before returning to Victoria en route for

THE proprietors of the London Houre are in the market with their stock of autumn and winter goods, which are of an unusually fine character this season, having been selected personally by Mr Turner for this market during his late visit to London and Paris.

LEAVING .- The steamer Diana, Capt T Wright, proceeds direct to San Francisco to-morrow morning, where it is said she has been sold, preparatory to her owner leaving for Japan. We understand Mrs Wright and family will still remain in this city.

DR RUSSELL.-This well known correspondent of the London Times, familiarly called Bull Run Russell,' is a candidate for Chelsea in the Conservative interest. His prospect of election does not appear very promising, under the new state of things.

THE steamer G S Wright left yesterday for Nanaimo to load with coal for Portland It is not known at present on what day she will sail for that place-probably in two days time.

NAVAL .- H M S Z alons was engaged a gun practice yesterday in the Straits. It is said the Pylades will leave in a few days for Panama to receive supernumeraries for the fleet.

Official .- All the land lying between is reserved by order of the Executive.

#### Dr. J. C. Davie and Confederation.

EDITOR COLONIST, - What does correspondent John C. Davie, M R C S, really mean ? I can't make it ont, except the amiable old gentleman wishes to advertise himself without paying the regular price. In yesterday's issue he signed his name and aired his titles at the bottom of a latter compounded of the greatest balderdash imaginable. What else but notoriety at any price is his object? I do assure you, however that if the worthy old man is as ignorant of medicine as he is of the subject of which he writes, he ought to keep an undertaker and a churchyard for the use of his patients. He can't have any friends I think, or else they would never allow him to appear in print particularly with the alphabet to his name But if his object is only to advertise himself, no wonder that he is grateful to you for opening your paper.' It is such a very cheap way to advertise, is it not? It is possible that he is afflicted with a brain disease Take the following as a specimen from his letter. 'One argument used in favor of Confederation is that the inadequate expense of our present system of Government would be reduced,' What does he mean pray by in adequate expense? His thought-machine is evidently affected! Now don't you think Mr Editor, that the M R C S (which being interpreted I am told means Miraculous Re ceptacle of Chronic Stupidity) ought to take one of his own pills to clear his brain so as to explain the above quoted sentence. He is no doubt inflicted with anticonfederatepho-

bia or freeadvertisementphobia. I am in-

clined to think that his case is a genuiue case

Another Convention .- We understand of the former; for the diognostics are; want of correct ideas expressed in incoherent language like a man talking in his sleep. These diagnostics are the prevailing characteristics of the former disease. The disease how. ever never proves fatal; so our worthy M R U S will doubtless regain once more the use of his thought-machine. READER.

PS-The balance of M R C S's letter I will take up when the sentence quoted above has been explained.

#### LAST NIGHT'S DESPATCHES. Progress of the Spanish

Revolution.

#### DISCHARGE OF SURRATT.

Suit Against Laird on Account of the Alabama Depredations.

#### Europe.

PARIS, Sept. 24-The report that the Queen of Spain had crossed the frontier into France is premature, she still remains at San Sebastian.

Official despatches from Madrid have the following statement: The insurrection has been suppressed in Grenada. A battle was fought which lasted two hours and resulted in the defeat of the rebels. The effort to destroy the Government is confined to the province of Santander and the cities of Malaga and Seville.

Letters from Cadiz say, the citizens there have taken no part in the rebellion and business has not been interrupted.

Paris, Sept 25-The Moniteur an nounces officially, that the Government concession lately granted in favor of Erlanger and Renter of the French and American Telegraph Company, authoriz. ing them to lay a submarine telegraph cable between France and America under certain reserved conditions, has become definitely fixed and complete. The capital is to the amount of 271,000,000 francs, main portion having been subscribed for the undertaking.

General Parva commanding the Royal troops in Spain is massing his force to attack Seville.

London, Sept. 25-The following is the atest from Spain: The Government at Madrid had declared all Spain in a state of siege. General Goden had been sent out with a detachment of Royal troops against the province of Santander. Reports say that General Prim is marching directly on Madrid. It is reiterated that he is accompanied by the Duke de Latorre. It is estimated that the force under his command is now two hundred thousand strong. The Duke de Latorre is acting as provincial president, and

by General Concha from Madrid. The Spanish ships of war in the port of San Sebastian have declared against the Queen and have joined the rebel fleet the revolutionary leaders have issued a decree declaring that any officer who orders an attack on the people or patriot soldiers shall be adjudged a traitor to his

civil head of the revolution and has re

fused offers of accommodation (?) made

London, Sept. 25-Rev. Henry Millman dean of St. Pauls died to day.

Paris, Sept. 25-The French Governnent will immediately strengthen the army posts on the Spanish frontier.

It is reported that Queen Isabella has entered France. There is a rumor that the revolutionary General Prim has been arrested, but lacks confirmation.

The La Pays says the Spanish army is loyal and the insurrection is confined to the provinces of Andalusia and a few sea ports. Official announcement has been received from Madrid, Catalonia, Aragon and Valencia, stating that these provinces are quiet.

#### Eastern States.

NEW YORK, Sept. 26-A suit has been astituted in the United States District Commissioner's Office in the Southern District of New York by Messrs Cushing of Newburyport, Mass. against John Laird of Birkenhead, England for loss sustained by them, by the burning of their ship Sonora in the Straits of Malacca, in December 1863, by the Alabama, which libellants say was built and fitted out in direct violation of the laws of England by Laird; attachments have been issued against funds owned by Laird, supposed to be deposited in the United States subtreasury in this city.

WASHINGTON, Sept. 24-In the Senate case the counsel for the prisoner entered a plea that there is a statute of limitation in force providing that an offence must be prosecuted within two years, Judge Wyllie discharged Surratt from custody sustaining the plea.

THE KING OF PERFUMES.

THE VICTORIA PERFUMERY is now adopted by the ELITE of the arstocracy and fashionable world on account of the superior articles for the toile each of which has been made a speciality.

The new perfumes prepared with the ESSENCE of YLANGYLANG extracted by distillation from the UNONA ODORATISSIMA and imported from the Philippine islands are beyond comparison for their delicacy and sweetness. We therefore reommend the BEAU MONDE to try as a handker-

RIGAUD'S TOLUTINE

Is an admirable toilet-water, the true talisman of beauty, preserving the freshness of the skir and the fairness of the complexion. It is the perfection of science adapted to the toilet, and is incontestably superior to Eau de Cologne, or the most esteemed of vinegars and the Florida water.

THE MIRANDA HAIR-OIL AND

Is a remarkable preparation which may be called a real treasure for the hair. It is com posed of tonic and fortifying compound, and is beautifies and preserves the hair at the same time as it imparts to it a most refreshing pefume.

MIRANDA SOAP,

COMPOSED MAINLY OF THE MILK OF THE LETTUCE AND THE LILY,

A simple comparison of this soap with others sold by the perfumery trade, suffices to prove its superiority. It gives the skin a deigh surface, it lathers abundantly, forming a real milk-bath, and is all that can be desired as to

DENTORINE

AND TOOTH - PASTE.

THE DENTORINE is a pleasant clixir for the teeth; it perfumes and refreshes the mouth, strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution in this class of toilet necessary, and has done away with powders and opiates that are more or less acid and dangerous. A brush passed over it produces a soft and unctuous mucilage that gives the teeth a brilliant whiteness.

THE ROSE POWER

Preserves the skin from the roughness of the wind and the cold, gives it a soft freshness, and prevents red spots and freckles. It is far superior to rice, and starch powders, and it is deliciously

edical disoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names suffic ently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from numerous medicines advertised in the publi papers as able to cure every possible disease, as they : r applicable only to but a very few complaints. The mo stringent laws exist in France with regard to the sale of medical preparations, and only those which have under zone an examination by the Academy of Medicine and have been proved efficacious, either in the hospital or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for no excellence of Messrs. Grimnult et Co.'s Medi-
